Meeting of the Democratic Central Committee.

We publish in another column the proceedings of the meeting of the County Central Committee at the Eagle Hotel on Wednesday last, for the purpose of organization and preparation for efficient action in the ensuing campaign. This Committee, composed of gentlemen residing in different sections of the county, was originally appointed at the County Convention of 1887, and collectively re-appointed in 1888. Scarcely their original selection they have never organized nor convened as a body for any purpose, nor has any official action been taken by them, with the exception of the calling of the County Convention of last year. In that instance the call emanated from the Committee in the aggregate, the name of each being appended thereto. It will be observed that one of the members of the Committee, with characteristic modesty, having preliminarily "struck an attitude," assumed several exceedingly grotesque positions with reference to their proposed action. Their intrinsic modesty of pretension, as well as the logical reasoning and deductions upon which they are founded, will be sufficiently apparent from the most casual examination thereof!

The first of the resolutions unanimously adopted by the Committee, fittingly expresses the nearly unanimous sentiment of the Democracy of the county, with reference to the disreputable character of the Genesee Weekly Democrat, under the management of the disorganizing clique of bankrupt political intrigues, into whose custody that paper has been recently transferred, solely for the purpose of promoting the unity and increasing the efficiency of the Democratic party of the County!

We incline to the belief, however, that the kindred attempt to transfer the Democracy of the county in the same direction, will be found to be an investment of a much inferior pecuniary value, and one much more embarrassing in the management of its various complicated details than trafficking and financing generally in the "stock" of defunct Mutual Insurance Companies!

The "signs of the times" indicate that we shall doubtless have occasion to refer again to the action of the Central Committee at their recent meeting, and we shall avail ourselves of the opportunity then presented for discussing their proceedings and the circumstances connected therewith with more freedom and detail. We content ourselves, at present, with the expression of our gratification at their prompt organization thus early in the campaign, as furnishing a satisfactory augury of the zeal and energetic action which will characterize the operations of the Democracy of the county, in the support of their principles and candidates in the coming Campaign.

English Opinions of the Peace.

ISAAC BUTTS, Editor of the Rochester Union, now in London, writes of the war feeling in England as follows:—

The consequences of a French invasion constitute the theme of frequent and various speculation. Few, very few indeed, whom I have heard express opinions on the subject, speak of it with genuine English complacency. Almost everybody indulges in forebodings, more or less tinged with gloom, in case the French should earnestly set about invading England. Indeed, one English gentleman, a large landed proprietor in Lincolnshire, said to me he could not see what could save England from subjugation if Russia and France united against her. At the very best, said he, their combined assaults would see England back half a century in her career, besides impairing her prestige for all time. Another gentleman, whose position and associations qualify him to speak intelligently on all subjects of public concern, said to me last evening that if the

French ever effect a landing London would be almost certain to fall; and he added his opinion that in that event it would be given up to pillage! It is to be hoped that such opinions spring from an imagination somewhat disordered by apprehensions of the dreaded evil.

Since my last letter I have traveled England from one end to the other (nearly) several times; taken a peep at some of her old cathedrals about which volumes have been written and to which I would hardly add a postscript; paid a brief visit to the both Houses of Parliament and seen much that it would do to write about. But I must not take up any of those subjects to-day. I have taken a furnished house till the 1st of September, situated in Blackheath, a beautiful rural suburb, five miles from London Bridge by railway. And here I shall remain the most of the time till the sailing of the *Peruvia*, September 3d. We propose to make a short trip to the Continent; but it will be only a short one. London is the great centre of interest in respect to all matters in which I feel most concern—I mean English or European matters of course. And hence my purpose to remain here—especially since I have established myself in an English "home."

Novel Gold Diggings.

By the late steamer from the Isthmus of Panama, we receive accounts of the discovery of gold in large quantities in the Indian burying grounds in the Province of Chiriqui on the Isthmus. The Indians of Panama in early times understood the art of working gold to a considerable extent, mostly for ornamental purposes, and at death the trinkets owned by the person were buried with the body. People were flocking to these singular gold diggings at a rapid rate from Panama and in all probability, every Indian burying ground will be soon dug out and due over to the hands of the business created by the discovery. The business created by the discovery has subsided, and affairs along the lines have been restored to their wonted quiet. Most of the roads have suspended, while a large class have repaired stock and bonds alike. By economic pushed so far as to suspend necessary pairs, many roads have paid interest on their mortgage bonds. Whether the majority of them can do this for the next year is still a matter of doubt. The whole country is richer in crops than was known, but there underlies the whole mass of debts, made upon the inflated scale of 1859 and 1857, which requires the skill of the debtor to manage.

RECAPTURED.—We noticed the other day the escape of a former named He P. Baldwin, by jumping from the train while they were going at the rate of 10 miles per hour. We now learn that he was found in a field near Clyde hog corn for a living. What industrious character! With the nose and ears of a lamb, only with an enormous mouth, and dragon like teeth, and weighs about two ounces. Number four is an idol of hideous and obscene conception, with legs and arms extended, the head flat, having a fan-like crown at the back, a wide open mouth and a hooked nose, under which curls something like the latest form of moustache. This was evidently one of the obscene gods which belonged to the Peruvians. This idol weighs about two ounces and is of fine gold. Besides, there were a frog, an eagle, very small twin frogs, and an armadillo, and a small bell. The whole weighed over a pound, and were purchased by Dr. Otis from a person on the Isthmus at twenty dollars per ounce. The excitement growing out of these discoveries is represented as being very great throughout the Isthmus, and multitudes were leaving for the Chiriqui, in the district of Boqueron. One thousand persons were reported already at work in that region, digging for the newly discovered treasures. Several vessels were advertised to leave Panama. The place is some one hundred and fifty miles from that point.

Considerable excitement exists at Humboldt Bay, California, concerning the reported discovery of gold diggings by Mr. C. A. Robinson, who lives at the mouth of the Eel river. Mr. Robinson exhibited a "prospect" (15 cents) which he stated he procured from one pan of dirt. He represents that the diggings are extensive and water convenient. He offered to point out the diggings for \$1000—and \$500 had been subscribed toward remunerating him.

SCARCER ARTICLES.—Unbustled ladies, pure and undefiled Christians, disinterested friends, common honesty, sound potatoes, first-rate butter, reluctant enemies, purely moral females, obliging bankers, courteous Railroad officials, good liquors, good wives when you are in trouble, men of liberal views, ministers without bigotry, and people who don't owe us.

The potato rot is prevailing extensively in Rhode Island. Dod rot it!

Democratic County Committee.

The undersigned, members of the Democratic County Committee of Genesee County, hereby designate and appoint as Chairman of said Committee, Henry I. Glowacki, of Batavia, and hereby authorize and request him as such Chairman, to call a meeting of such committee or a County Convention of the Democracy of said County, at such time or times as may be necessary or advisable.

A. T. DRAKE,
E. SCOFIELD,
A. ARNOLD,
CHARLES FULTON,
LEMAN BRADLEY,
JOSEPH DESHON,
S. N. PERVIER.

I respectfully request you to attend a meeting of the Democratic County Committee at the EAGLE HOTEL, in the village of Batavia, at 2 o'clock on Wednesday next, 27th inst., for the purpose of consultation, and organizing for the fall campaign.

Pursuant to the above call a meeting of the County Committee was held at the Eagle Hotel, in the village of Batavia on Wednesday, the 27th instant, at 2 o'clock P. M.

The following members were present:—
Alexander—Charles Fulton,
Alabama—S. N. Pervier,
Batavia—H. I. Glowacki, H. Wilber,
Byron—A. Arnold,
Bethany—Joseph Deshon,
Le Roy—A. T. Drake,
Pavilion—Leman Bradley.
Absent Messrs. Scofield of Bergen, and Willis of Elba.

The meeting was called to order by H. I. Glowacki, Esq., chairman, who stated the purpose of the meeting to be the permanent organization of the Committee, consultation and preparation for efficient action in the approaching campaign. On motion, A. T. Drake of Le Roy, was chosen Secretary of the meeting. At this stage of the proceedings Mr. H. Wilber interposed a "preliminary objection." He insisted, first, that he was the Chairman of the Committee whether they desired him to be or not! And second, if that "didn't work," he insisted that the Committee should not appoint a Chairman whether they desired to or not! These several propositions, having been duly discussed and due deliberation, according to their respective merits, had thereon, they were overruled by the Committee. Mr. A. T. Drake, for the purpose of removing any supposed objections to the previous appointment of the present Chairman of the Committee, moved that H. I. Glowacki, Esq., of Batavia, be selected as such Chairman, in accordance with such previous written appointment. A majority of the members present having voted in favor of such motion, Mr. GLOWACKI was declared duly elected Chairman of the Committee.

The following resolutions were unanimously adopted by the Committee:

Resolved, That the recent course of "The Genesee Weekly Democrat," in prostituting its columns from week to week to the vituperative, discussion and agitation of matters of a purely personal nature, to the substantial exclusion of the more general and appropriate political topics intimately connected with the prosperity and success of the Democratic party of the State and nation—has utterly destroyed our confidence in either its efficiency as a Democratic organ or the political integrity of its management, and should receive the unqualified condemnation of every Democrat of the County who desires and labors for the unity and prosperity of the Democratic party.

Resolved, That we cordially recommend to the countenance and support of the Democracy of the County—"The Genesee County Herald and Spirit of the Times," as an efficient and reliable Democratic Journal, whose columns year after year furnish evidence, as well of its loyalty to Democratic doctrines and principles, as of its soundness and ability with which they are advocated and sustained.

Resolved, That the Chairman of this Committee be and he is hereby authorized and requested to call a County Convention to meet at such time and place as he may deem appropriate in his judgment, for the purpose of transacting such business as shall be specified in such call.

On motion of Leman Bradley, Esq., it was resolved that the proceedings of this meeting be published in The Genesee County Herald and Spirit of the Times, The Rochester Union & Advertiser, and The Albany Atlas & Argus.

The Committee then adjourned sine die.
H. I. GLOWACKI, Chairman.
A. T. DRAKE, Secretary.

MAN KILLED BY THE CARS.—As the Emigrant Train on the Corning Road was coming into Avon, soon after nine o'clock last evening a man was run over at a crossing on the road to the Springs and instantly killed. His name was a singular one, and is reported as "Houghanier Gordinier," which is probably something near the true one. He lived near the Springs, and was known as a man of intemperate habits. It is thought that he was intoxicated, and laid down to sleep upon the track a short time before the train came down, or he may have thought best to shorten his unprofitable existence, and took the cheapest method for so doing.—Rochester Union.

The ladies—May we kiss all the girls we please, and please all the girls we kiss.

A SINGULAR CASE.—Miss Esther L. Bosworth, of Chemung, (Chemung Co.) is under arrest on a charge of attempting to poison a colored girl named Sarah Ann Story, a servant in the family of Mrs. Mariha C. Wells. Miss B. is a young woman less than eighteen years old, and of a bright, interesting appearance. She denies the charge. On two occasions, within the month, Miss B. called at the house of Mrs. Wells, and gave to the colored girl each time some candy. On the first occasion the candy that was given her was thrown away, after she had simply tasted it and found it had a disagreeable flavor. On the other occasion the candy was given by Sarah to Mrs. Wells, who brought it to Elmira and left it with Dr. Gregg for examination, who found it to contain three grains of Strychnine. The motive for poisoning the colored girl exists in the fact, according to the theory of the prosecution, that Miss Bosworth has a lover named Lyman Burt, who has his home in the Bosworth family. This Burt was not long since arrested for stealing money from Mrs. Wells. The only witness against him is the colored girl. During the month of January last the dwelling of Mrs. Wells at Chemung, a valuable one, was consumed by fire, together with most of her furniture, and in March her carriage house was destroyed.

RELIGION IN AMUSEMENTS.—A celebrated divine says, "People may ask 'What have you to do with amusements?' I have not to do with them; but God made man to do with them. That is human nature; and that man takes a wrong course who tries to dam up human nature. I want to try to turn human nature in a right direction and to let men have good amusements, for they like them. Where is the man that does not like to have amusement? Why, I like to see a kitten chase its own tail. If the ministers of religion had done their duty in trying to guide and direct the amusements of the people, there would not be so many bad amusements as there are at this day. Instead of the clergy standing aloof from amusements, I would like to see them taking more interest—taking part—in them. I agree with John Wesley, who, when some people found fault with him for taking times which had been associated with foolish songs, and applying them to sacred hymns, replied, 'I see no reason why the devil should have all the good things in the world.' No more do I.—There are music, painting, chess, quills, and cricket. I would yoke them all in the service of religion and virtue."

THE CHILD-ANGEL.—Death has forever closed those little eyes, and forever shrouded their bright glances. How sweetly she sleeps, that little coveted angel! How lightly curl the glossy ringlets on her forehead! You could weep your very soul away to think those cherub lips will never, never unclose. Vainly you clasp and unclasp that passive darling head that wandered so often over your cheeks. Vainly your anguished glances strive to read the dim story of love in those faded orbs. That voice, sweet as winds blowing through wreaths and garlands, slumbers forever.—And still the busy world knocks at your door and will let you have no peace. It shouts in your ear, it smiles in your face, it meets you at the coffin, at the grave, and its heavy foot-steps tramp up and down in the empty room from whence you have borne your dead. But it comes never in the hush of night to wipe away your tears! In the solemn silence of the grave we feel the force of the sickening sorrow which hangs heavily upon the heart, as though it would press it down into the narrow space in which the spirit dwells in mournful suspense. But a bright vision meets the eye. Can you look up! can you bear the splendor of the night! ten thousand celestial beings, and your radiant child angel in the midst of them—

In her eyes a glory bright,
On her brow a glory crown.

Mrs. H. O. C. Hewitt, a Southern lady, formerly of Mississippi, is out with an elaborate defence of the reconciliation of Mr. and Mrs. Sickles. We give a specimen, as we find it in the *Morchant's Record*:

"And Mrs. Sickles, she may be a blessing to many! Rahab, the worst of women mentioned in sacred history, was saved, with all her family, when the city of Jericho was taken, and no other souls were saved—her faith and good deeds justified her. There is more rejoicing in heaven over one sinner that repenteth than in the ninety and nine that went not astray.—Mrs. Sickles, though sold like poor little Joseph, has it in her power to be a deliverer from evil, through grace; and a minister of good to aching hearts and aching sisters.

We should rejoice that one man at least has dared to do right—in return to his wife; and an erring wife has preferred to those who would gladly have had her separated from him, in order that they may try to go her! The romping up of their chagrin at the just disappointment would be amusing, if it was not in such a serious cause. Cannot some one recommend a panacea for their distress?"

KILLED BY A BULL.—As Mr. John Luff a respected farmer, living near Saeta Harbor, went out to salt his cattle, Sunday last, he was set upon by a wild three-year-old bull. The animal struck him with both horns in the leg and gave him a toss in the air; the fortunate man came down he was str again in the forehead and shoulder, course, the result was inevitably death. A neighbor saw the transaction, and he went to the rescue of Mr. Luff the infuriated animal came rushing upon him when he was shot with a gun that he had with him.

An Important Suit.

Mrs. Elizabeth Grant, widow of Lathrop G. B. Grant, has recently obtained a judgment of \$10,000.00, against Trumbull Cary, both residents of Batavia. This after being in the hands of three referees for about a year was finally referred to L. W. Thayer Esq., of our village and he above is the verdict. Mr. Grant was from 1824 to 1837 a partner of Mr. Cary. They had a long line of accounts and deal, and this we believe, is the first time the books have been balanced. The Attorneys employed were John Gannon and Geo. Coedick Esqs., for plaintiff, and Taggart Hen law for defendant.—*Warren New Yorker.*

STARTLING EVIDENCE.

LET THE SICK READ.—The Boston Scalpel, a medical publication says: Dr. Herrick's Sugar Coated Pills, made at Albany, N. Y., appear to be the pill of the world. Dr. H. makes no secret of their compound: he furnishes all physicians in good standing with the receipt of their ingredients, and with the Pills, sugar coated, by the pound. Among all medicine manufacturers, Dr. Herrick stands in medical knowledge and medical responsibility, unapproached. As Spring is upon us, and hot weather expected, and a few doses of Herrick's Matchless Pills.—[Dundee Record.]

PHYSICIANS USE THEM.

Dr. C. T. Pugsnot, of Baltimore, M. D., a note to Dr. Herrick, says: I have tested your purgative Sugar Coated Pills in a variety of diseases, and find them superior to any cathartic I ever used. My customers, particularly the female portion, have fallen in love with them, and frequently ask me to give them the Sugar Coated Pill. Your discovery in coating a pill with sugar should immortalize your name, and I doubt not your invention will be handed down to future posterity as a discovery worthy the day in which it was made. Please accept my thanks for the can of pills which reached me this morning by express. Enclosed find the amount of your bill. Sold everywhere.

DR. COLEMAN'S NEW MEDICAL SALT.

For Inflammatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only.

Dr. Coleman's New Medical Salt, instead of being a remedy for all diseases, has been found to be a cure for all diseases, and accomplishes but one thing to wit: subdues inflammatory diseases, whatever be their form or locality, whether in the head, throat, abdomen, extremities or skin.

New Medical Salt. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures inflammatory diseases, (as others) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation.

NOTICE TO INVALIDS! The following forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are easily subdued by the New Medical Salt, as it is explained by water, to wit: Head Fever, Headache, rashes of blood in head and heart, Face flushed with redness, nose, tongue and liver, Neuralgia, Spinal affections, Rheumatism, Dropsy, Pleurisy, Asthma, Cough, Dyspepsia, Yersinal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

Dr. COLEMAN'S NEW MEDICAL SALT does just what it claims to do—more no less—subdues the fluids by restoring them to the system, and allays and removes inflammation. Descriptive particulars may be obtained from any Druggist who has this valuable medicine for sale.

Dr. COLEMAN'S NEW MEDICAL SALT, Get it! Circular. Ask any Druggist about the New Medical Salt.

Ask your neighbors about the New Medical Salt; for it is not a Patent medicine, but the plan of an eminent Physician, so our Fatherland to try the New Medical Salt, for its medicinal and directions are circular.

Dr. Coleman's Anti-phlogistic Salt.
Acute Rheumatism, \$1.00; Chronic \$2.00.

Sent by mail, free of expense on receipt of price. Invalids with chronic or long-standing diseases, should always order a chronic package. D. C. TAYLOR & SONS, Gen. Agents, 293 Dock St. Philadelphia.

MEDICINES.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which the fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending from parents to children into the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or astringent matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disease from the blood, and the reinvigoration of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERECTILE and SALT DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYTHELMA, PIMPLES, PUSTULES, BLOTCHES, BLAINS AND BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, STIPULITIS and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "purity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Headache, Dropsy, Indigestion, Pain in and Morbid Function of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral.

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.

DR. JOHNSON'S

HERB DISPENSARY!

OFFICE 95 MAIN STREET, (2nd door, Up Stairs, Buffalo, N. Y.) A NEW, SPECIAL, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorrhoea, Nervous Debility, Marasmus or Wasting Consumption, AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies peculiar to a certain sex, and in consequence, involving at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations, or symptoms are: Nervous Debility, Exhaustion and Exaggeration; Catarrhus, or Inflammation; and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs; great pallor of the face; asthenia, hemorrhoids, and more than thirty other symptoms. In each one of these parts of the body, pain in the back and limbs, numbness, dyspepsia or indigestion, Irritability of the stomach, or nausea, secretion of the kidneys and other glands of the body, Leucorrhoea or Pterygium, Abusus, or Excess of the Urinary and Nervous Systems.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from an inflammation and chronic inflammation—a state of morbid irritability, hence the want of success on the part of the School of Medicine.

Dr. JOHNSON is now engaged in treating this class of morbid malady with the most astonishing success. The treatment adopted by the Institution is new. It is based upon scientific principles, with well discovered remedies, with no morbid or poisonous. The facilities of cure are such, that patients can be cured in their own homes without expense, in any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these dreadful ills, will receive for \$5 a series of Health Notes, and perfect chart of course which will be to them a true polar star through life.
